Caring for God's Acre

St Mary's Church Count 2025

Saturday 7th – 15th June 2025

We need your help!

As a church we have pledged to be responsible and implement ways to improve the biodiversity of the church land.

Please respectfully enjoy St Mary's Church acre of God's land and help us discover what plants, bugs and birds live here. (*Please don't touch, just observe*)

Inside the church you will find a sheet to record your findings and send us any photographs you have taken.

This national annual count is open to everyone.
